white kandkershief around his neck. His face was nearly as white as the handkershief. Albert's face was streak at with red and white. The Englishmen preserved their roses intact.

A sleady average of about 2,000 speciators was in the Garlen during the morning and afternoon. In the evening the throng improved rapidly in numbers, and Dan and Albert began to tone up. A trip to the quarters of the men resulted in obtaining the information that O'Leary would soon be nimself again. Albert's assistants said that he was last overcoming his difficulties.

Tail Aspien, Rewell's man, said that when Charley finished 100 miles, at 2 o'clock, they had given him actual band that rigged for another numbered males inside of fourteen hours. That there was nothing the matter with Vaughn could be seen.

At 6 P. M., eighteen hours after the beginning of the race, the bankhoard gave Rowel 1205 miles; Albert, 95°s. Vaughn, 91°s. O'Leary, 76°s.

The Englishmen had been gradually drawing away from their opponents all day. At times Bowell and Vaughn were both ahead of the best records in their ine of going, but, as there was no occasion whatever to keen up the strain, they drew it mild between dissues.

The speciators evidently enjoyed the fine washing of Vaughn and O'Leary. It is by far the best exhibition ever seen here. O'Leary had yet wear down his opponent, as he has done where. If he should overtake Vaughn a will see a world result.

THE ISCHIA EARTHQUAKE.

A Town Partly Destroyed and Two Hundred Lives Probably Lost.

LONDON, March 7 .-- Additional details of he earthquake at Cassamiceola, on the Island of Ischia, confirm the previous accounts of loss of life and damage to property. The first shock occurred at 1% P. M. on Friday, and the second and fatal shock an hour later. The and two thermal establishments seriously damaged. The second shock lasted seven seconds, der. Then came a crash of failing houses, acprobable loss of life will reach 200. The dam-

that now it will be acted on favorably by the Judiciary Committee and confirmed by the Judiciary Committee and confirmed by the Senate. Thurman, Mathews's strongest opponent, has left the Senate. Conkling is understood to have abandoned his opposition, which was directed chiefly against Hayes. Matthews and Jones of Nevada, Conkling's faithful friend, had a long conference on Siturday, and parted in the best of humor. It is assumed that this means that Conkling will now favor Matthews's confirmation.

It is also partly certain that Hayes requested Garffield to appoint Rogers, who was Hayes's secretary, to succeed Humi in the Court of Cinims. It is expected that another vacancy will be made in that bench by the appointment J. Bancroft Davis to be First Assistant Secretary of State.

J. Bancroft Davis to be First Assistant Secre-tary of State.

A strong pressure is being brought to bear on Garfield to appoint Judge Cooley of Michi-gan to be Justice of the Supreme Court. This comes from some of Garfield's closest friends.

STANLEY MATTHEWS'S NEW HOPES,

Rumors that President Garfield will Renominate and the Second Confirm Him.

Washington, March 7.—A near friend of Mr. Hayes said to-day that he announced just as he was leaving Washington that President Garfield had promised to send in Stanley Matthews's name for Justice of the Supreme Court. It is expected that the nomination will go in very soon, and Matthews's friends say that now it will be acted on favorably will of the Prime Minister and Parliament.

Mr. Tinsdate Cailed to Account.

At the February meeting of the Ninth Assembiv District Republican Association, E. J. Tinsdale intro-duced resolutions reflecting upon the President of the as, sociation, ex-Alderman John W.
